

STICK-ON THERMOCOUPLE

SO STYLE

- QUICK TURNAROUND ON MOST CONSTRUCTIONS
- FAST RESPONSE SURFACE MEASUREMENT
- ADHESIVE BACKING FOR EASY INSTALLATION
- SPECIAL LIMITS OF ERROR MATERIAL

Self-Adhesive Stick-On Thermocouples

Ready to directly apply to application. They are embedded in thin laminate for surface applications by adhesive bonding. Low thermal inertia results in fast response for an ungrounded thermocouple. Color coded leads are supplied. **Good for temperature from 0°F to 400°F continuous and 500°F for short periods.**
